PHOTOGRAPHY CONTEST

A photography contest will be held for registered seminar participants. There will be three categories judged: **ARSON FIRE PHOTOS**, **ACCIDENTAL FIRE PHOTOS** and **GENERAL FIRE PHOTOS**. The Photography Committee will choose the winners. **FIRST PLACE** winners in each category will be announced at the conference banquet and receive a \$100.00 award.

CONTEST RULES: No framed or mounted photos. No prints larger than 8 ½" X 11" or smaller than 4" X 6". Absolutely, no writing or markings on photo. Entry form must be filled out for each photo upon submission at conference. Maximum of two photos per person per category. Photos will become part of the seminar photo album and may be used in future training programs. **Photos may not have been entered in any prior IAAI photo contest. Photo must have been taken by the person entering it.** All photos must be submitted by the closing of the conference registration on Monday. No mail-ins will be accepted.

The Evidence Collection Technician Program verifies an applicant's fundamental knowledge as measured against core job performance requirements of established professional qualifications standards and standard industry practices related to evidence collection on fire scenes. This measurement is not all inclusive of the incorporated professional standards cited but lays the foundation for measuring the holder's fundamental ability to perform specific evidence collection tasks related to fire scene investigation at an acceptable level as measured against published acceptable practices.

The applicant must provide documentation of meeting minimum requirements including experience, training, and education. After the application is approved, the applicant must then successfully pass a practical examination.

The IAAI-ECT designation must be renewed every three years.

Please go to firearson.com to see the full list of IAAI-ECT requirements and fees. Fees will be paid directly to IAAI and you must be approved prior to the conference to sit for the practical exam.

Forensic Photography

This program is geared towards the field operator who works in varying conditions with minimal equipment. It emphasizes field expedient techniques which may be employed by the average person with minimal training. Topics will include basic photography, exposure, aperture, shutter speed, and lighting. This is a hands-on class. Bring your camera and the manual to your camera.
